

# How well does the health care system in Illinois

work for people of different racial and ethnic groups?

In Illinois, **AANHPI people** experienced the **highest health system performance**, scoring in the 92nd percentile among all population groups nationally.

**Black people** experienced the **lowest health system performance** in the state, scoring in the 17th percentile.

Compared to other states in the Great Lakes region, Illinois has more severe racial and ethnic health disparities.

## Health System Performance by Race/Ethnicity

Each column is a racial/ethnic group, and each point represents a state. Performance represented as percentiles (1–100). Illinois performance percentile highlighted. No highlighted dot indicates overall performance data not available for that group.

## Population by race/ethnicity (2022)

	Illinois	Great Lakes	United States
Total	12,417,182	46,505,889	328,403,052
AANHPI	748,176 (6%)	1,731,111 (4%)	19,862,655 (6%)
AIAN	8,595 (<1%)	84,865 (<1%)	1,688,543 (<1%)
Black	1,612,507 (13%)	5,201,878 (11%)	38,460,950 (12%)
Hispanic	2,281,838 (18%)	4,329,908 (9%)	62,818,758 (19%)
White	7,266,072 (59%)	33,068,849 (71%)	189,511,136 (58%)

Notes: AANHPI = Asian American, Native Hawaiian, and Pacific Islander. AIAN = American Indian and Alaska Native. “—” means data not available. Great Lakes states include IL, IN, MI, OH, WI. ## How well does the health system in Illinois work for people from different racial and ethnic groups, and across different dimensions of care?

### AANHPI

Illinois ranks 9th of 31 states where calculation was possible, indicating health system performance for AANHPI people in the state was better than average compared to other states. Specifically:

- Health outcomes ranking: **7** (of 33) is better than average
- Health care access ranking: **11** (of 34) is better than average
- Health care quality ranking: **12** (of 41) is better than average

### AIAN

An overall ranking for AIAN people in Illinois is not available because of insufficient data.

- Health outcomes ranking: insufficient data
- Health care access ranking: insufficient data
- Health care quality ranking: insufficient data

### Black

Illinois ranks 30th of 39 states where calculation was possible, indicating health system performance for Black people in the state was worse than average compared to other states. Specifically:

- Health outcomes ranking: **35** (of 40) is among the worst
- Health care access ranking: **16** (of 40) is better than average
- Health care quality ranking: **36** (of 41) is among the worst

### Hispanic

Illinois ranks 15th of 47 states where calculation was possible, indicating health system performance for Hispanic people in the state was better than average compared to other states. Specifically:

- Health outcomes ranking: **13** (of 49) is better than average
- Health care access ranking: **16** (of 48) is better than average
- Health care quality ranking: **25** (of 48) is worse than average

### White

Illinois ranks 21st of 51 states where calculation was possible, indicating health system performance for white people in the state was better than average compared to other states. Specifically:

- Health outcomes ranking: **26** (of 51) is worse than average
- Health care access ranking: **18** (of 51) is better than average
- Health care quality ranking: **25** (of 51) is better than average

## Illinois Performance Data

	AIAN		AANHPI		Black		Hispanic		White	
	IL rate	US rate	IL rate	US rate	IL rate	US rate	IL rate	US rate	IL rate	US rate
<b>Health Outcomes</b>										
Deaths before age 75 from health care–treatable causes per 100,000 population	47	125	40	50	181	164	62	73	77	83
