

How well does the health care system in Ohio

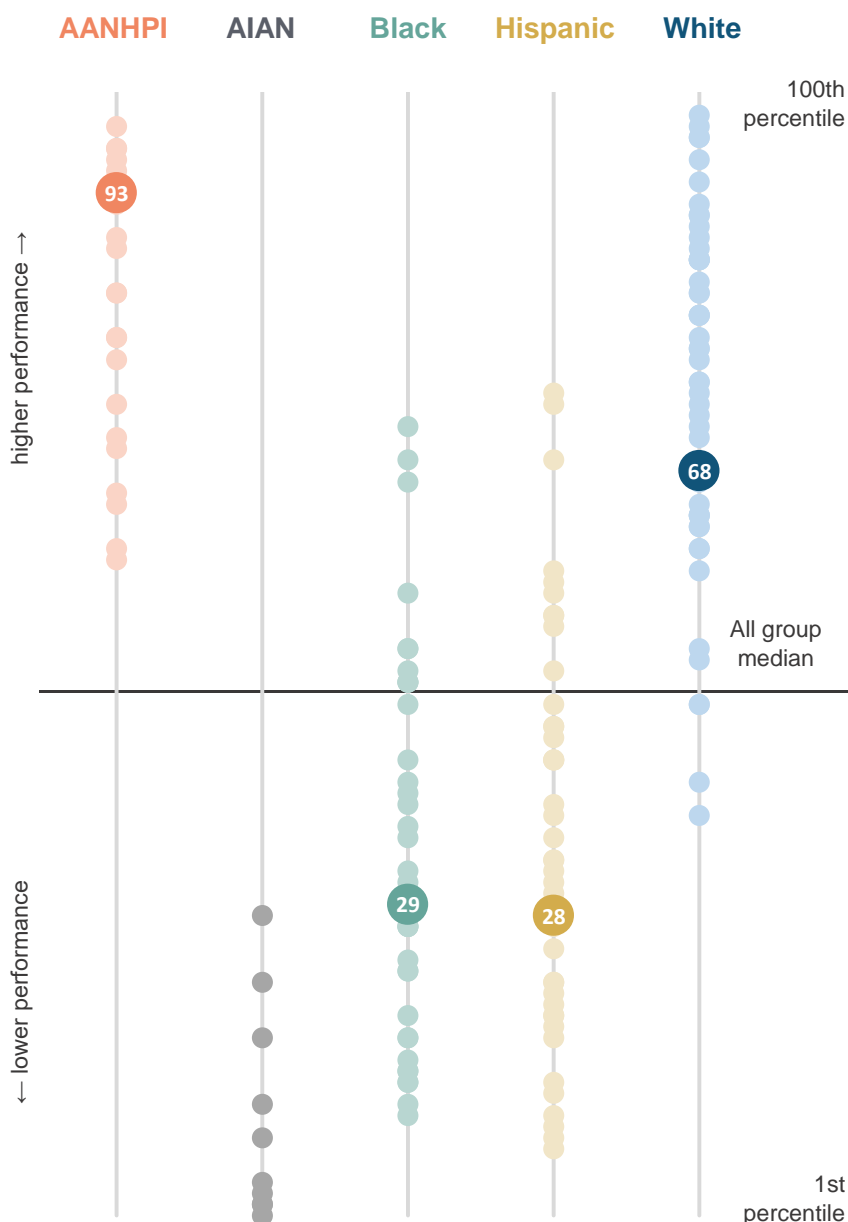

work for people of different racial and ethnic groups?

In Ohio, **AANHPI people** experienced the **highest health system performance**, scoring in the 93rd percentile among all population groups nationally.

Hispanic people experienced the **lowest health system performance** in the state, scoring in the 28th percentile.

Compared to other states in the Great Lakes region, Ohio has more severe racial and ethnic health disparities.

Health System Performance by Race/Ethnicity

Each column is a racial/ethnic group, and each point represents a state. Performance represented as percentiles (1–100). Ohio performance percentile highlighted. No highlighted dot indicates overall performance data not available for that group.

Population by race/ethnicity (2022)

	Ohio	Great Lakes	United States
Total	11,588,905	46,505,889	328,403,052
AANHPI	296,515 (3%)	1,731,111 (4%)	19,862,655 (6%)
AIAN	11,026 (<1%)	84,865 (<1%)	1,688,543 (<1%)
Black	1,369,256 (12%)	5,201,878 (11%)	38,460,950 (12%)
Hispanic	510,434 (4%)	4,329,908 (9%)	62,818,758 (19%)
White	8,839,964 (76%)	33,068,849 (71%)	189,511,136 (58%)

Notes: AANHPI = Asian American, Native Hawaiian, and Pacific Islander. AIAN = American Indian and Alaska Native. “—” means data not available. Great Lakes states include IL, IN, MI, OH, WI. How well does the health system in Ohio work for people from different racial and ethnic groups, and across different dimensions of care?

AANHPI

Ohio ranks 7th of 31 states where calculation was possible, indicating health system performance for AANHPI people in the state was better than average compared to other states. Specifically:

- Health outcomes ranking: **5** (of 33) is among the best
- Health care access ranking: **15** (of 34) is better than average
- Health care quality ranking: **5** (of 41) is among the best

AIAN

An overall ranking for AIAN people in Ohio is not available because of insufficient data.

- Health outcomes ranking: insufficient data
- Health care access ranking: insufficient data
- Health care quality ranking: insufficient data

Black

Ohio ranks 21st of 39 states where calculation was possible, indicating health system performance for Black people in the state was worse than average compared to other states. Specifically:

- Health outcomes ranking: **32** (of 40) is worse than average
- Health care access ranking: **15** (of 40) is better than average
- Health care quality ranking: **25** (of 41) is worse than average

Hispanic

Ohio ranks 26th of 47 states where calculation was possible, indicating health system performance for Hispanic people in the state was worse than average compared to other states. Specifically:

- Health outcomes ranking: **27** (of 49) is worse than average
- Health care access ranking: **28** (of 48) is worse than average
- Health care quality ranking: **41** (of 48) is worse than average

White

Ohio ranks 35th of 51 states where calculation was possible, indicating health system performance for white people in the state was worse than average compared to other states. Specifically:

- Health outcomes ranking: **42** (of 51) is worse than average
- Health care access ranking: **25** (of 51) is better than average
- Health care quality ranking: **42** (of 51) is worse than average

Ohio Performance Data
